

DEEPROCK XL

Geotechnical & Environmental Soil Sampling

Trailer Mounted High-Torque Drilling

The Deeprock XL is a tough auger drill capable of drilling glacially consolidated soils. Its small size is a great advantage when access space is at a premium. The Deeprock will setup faster and on steeper ground than full size truck drills, saving you time and money.

SPECIFICATIONS:

Size:

8' wide X 18' length
8.5' mast down – traveling height
19.5' mast up at lowest setting

Capabilities:

3 ¼" ID augers to 120'
4 ¼" ID augers to 100' 2" wells
6 ¼" ID augers to 50" 4" wells
4" casing advancer to 120'
Concrete Coring -6" to 12' Diameter
